THE ORIGINAL COLLECTION
196 X 84 X 95 MM

The 2CV fourgonnette is the very first car with a front-wheel drive configuration. It became quickly iconic because of its close relatives from the 2CV, its qualities and its numerous derivatives from the 20th century. The 2CV fourgonnette has been back on stage during 3 decades from 1951 to 1977, date on which the Acadiane replaced it.

TO TRANSPORT ALL KIND OF MERCHANDISES...

THE TUB H*

THE ORIGINAL COLLECTION
198 X 98 X 103 MM

Some call it «TUB», name used to qualify its short-lived ancestor. The truth is the type H, the first mass-produced front-wheel-drive van, extends its ancestor spirit. Presented in 1947 and marketed in June 1948, it became successful to artisans, merchants, hospitals, postal services and even villains... Little by little, the H type has invaded the roads of France.

AN OFFICIAL PRODUCT

THE D3A*

THE ORIGINAL COLLECTION
211 X 87 X 105 MM

When we talk about old commercial vehicles, we think of the Citroën Type H or the Renault Estafette. But few people mention the «Pig's Nose», a nickname rightly given to the Peugeot D3. In 1950, Peugeot began to market its first traction vehicle. Named Peugeot D3A, it was quickly taken over by the various coachbuilders. Its inside comfort is kind of rough and rudimentary !
